

Learning Community Design Framework

Use this template to design a student-centered learning community for your upper elementary classroom or grade level.

Community Purpose

What is the goal or focus of your learning community?

(Examples: kindness, inquiry, peer support, reading enrichment, student leadership)

Intended Outcomes

What do you want students to gain or demonstrate as a result of being in this community?

(Check all that apply or write your own)

- Increased engagement
- Stronger peer relationships
- Leadership development
- Improved academic performance
- Enhanced collaboration skills
- Other:

Student Roles

What roles or responsibilities will students take on?

(Examples: facilitator, note-taker, tech helper, peer coach, greeter)

Role Title	Description of Responsibilities

Student Mixing & Group Rotation

How will students have opportunities to work with new peers and interact with different teachers or classrooms? How often will groups change and for what purpose?

Weekly Rhythm & Routines

How often will this community meet or operate? What will a typical week look like?

Community Rituals

What rituals, celebrations, or routines will help sustain the community?

(Examples: shout-outs, reflection circles, badges, journals)

Success Indicators

How will you measure if the community is thriving?

(Examples: student surveys, participation rates, anecdotal evidence, peer feedback)

Launch Plan

When and how will you introduce the community to students? What's your timeline?

Support & Materials Needed

What support (staff, time, resources) will you need to bring this to life?

Reflections & Next Steps

What's one action you can take in the next week to move this forward?
