

Lesson 1:

- Introduction to the unit and its central idea.
- Brainstorming session: What is personal identity?
- Uzbek Curriculum: Integrated into the Uzbek Language subject, focusing on speaking and listening skills.
- Common Core Standards: Integration of Speaking and Listening standards.

Lesson 2:

- Exploring cultural identity: What elements contribute to personal identity? (language, traditions, beliefs)
- Discussing personal experiences and cultural backgrounds.
- Uzbek Curriculum: Integrated into the Uzbek Language subject, focusing on writing skills.
- Common Core Standards: Integration of Writing standards.

Lesson 3:

- Reading and analyzing a short story or poem that highlights the importance of personal identity.
- Reflecting on the text and sharing personal interpretations.
- Uzbek Curriculum: Integrated into the Uzbek Language subject, focusing on reading comprehension.
- Common Core Standards: Integration of Reading standards.

Lesson 4:

- Investigating cultural practices: Compare and contrast different cultural traditions.
- Research and present on a specific cultural practice.
- Uzbek Curriculum: Integrated into the Social Studies subject, focusing on cultural studies.
- Common Core Standards: Integration of Speaking and Listening standards.

Lesson 5:

- Understanding diversity: Discussing similarities and differences among individuals and cultures.
- Engaging in a group activity that promotes understanding and empathy.

- Uzbek Curriculum: Integrated into the Ethics and Psychology subjects, focusing on empathy and understanding.
- Common Core Standards: Integration of Speaking and Listening standards.

Lesson 6:

- Exploring multiculturalism: What does it mean to live in a multicultural society?
- Studying examples of multiculturalism in Uzbekistan.
- Uzbek Curriculum: Integrated into the Social Studies subject, focusing on cultural diversity.
- Common Core Standards: Integration of Speaking and Listening standards.

Lesson 7:

- Examining the history and cultural heritage of Uzbekistan.
- Researching and presenting on the contributions of different ethnic groups.
- Uzbek Curriculum: Integrated into the History subject, focusing on national heritage.
- Common Core Standards: Integration of Speaking and Listening standards.

Lesson 8:

- Analyzing a historical event or figure that influenced national identity in Uzbekistan.
- Discussing the impact on cultural diversity.
- Uzbek Curriculum: Integrated into the History subject, focusing on historical analysis.
- Common Core Standards: Integration of Speaking and Listening standards.

Activities:

Character Choices: Read a story with a character making decisions that reflect personal identity.

Choice Analysis: Discuss different outcomes of character choices. Calculate the probability of each choice leading to a specific outcome.

Real-Life Probability: Relate character choices and their consequences to real-life decisions and their probabilities.

Unit: Identity											
Lesson	Focus	UZ S&S	Literacy	ELA CC	ELA UZ	Math	Math CC	Math UZ	SS/Science	NGSS	SS UZ
1A	Culture and Identity	Vocabulary: family members, personal attributes (e.g., funny, artistic); Grammar: simple present, comparatives	figurative language	RI.5.1 (Quote accurately from a text), L.5.5 (Figurative language)	Can quote accurately from a short descriptive text and use figurative language to describe self-identity	algebraic expressions	6.EE.1: Write and evaluate numerical expressions involving whole-number exponents. 6.EE.2b: Identify parts of an expression using mathematical terms (sum, term, product, factor, quotient, coefficient); view one or more parts of an expression as a single entity.	Apply patterns and variables to simple expressions (Grade 5 Algebra UZ.5.1)	Understanding personal identity	3-5-ETS1-1 (Define a simple design problem reflecting a need or a want)	Can describe aspects of individual and group identity within family and culture
		Vocabulary: countries, cultures, personal attributes, traditions; Grammar: present simple, comparisons	Speaking, listening, and informational writing	SL.5.1 (Engage effectively in collaborative discussions), W.5.2 (Write informative/explanatory texts), RI.5.3 (Explain relationships between ideas or concepts)	Can describe personal and cultural characteristics in discussion and write about traditions using structured paragraphs	Order of operations, solving equations	5.OA.1: Use parentheses, brackets, or braces in numerical expressions, and evaluate expressions with these symbols. 6.EE.2b: Identify parts of an expression using mathematical terms (sum, term, product, factor, quotient, coefficient); view one or more parts of an expression as a single entity.	Evaluate and simplify basic algebraic expressions using correct operation order (Grade 5 Algebra UZ.5.2, UZ.5.3)	Understanding culture and its influence on identity	3-5-ETS1-1 (Define a simple design problem reflecting a need or a want) [contextualized to cultural needs]	Can explain how cultural traditions and values shape individual identity and behavior

1C Live		Vocabulary: traditions, customs, values, food, symbols; Grammar: present simple, comparisons	Speaking, listening, reflective writing	SL.5.1 (Engage effectively in collaborative discussions), W.5.1 (Write opinion pieces), L.5.6 (Acquire and use grade-appropriate academic and domain-specific words and phrases)	Can participate in small group discussions and write a reflective paragraph using personal and cultural vocabulary	Order of operations in context	5.OA.1: Use parentheses, brackets, or braces in numerical expressions, and evaluate expressions with these symbols. 6.EE.2b: Identify parts of an expression using mathematical terms.	Evaluate and interpret multi-step numerical expressions (Grade 5 Algebra UZ.5.3)	Cultural sharing and community analysis	3-5-ETS1-1 (Define a simple design problem reflecting a need or a want)	Can describe and compare cultural elements from personal and peer perspectives*
2A	Storytelling and Poetry	Vocabulary: storytelling elements, emotions, rhythm; Grammar: adjectives, simple past tense	Figurative language and poetry	RL.5.4 (Figurative language), W.5.3 (Narrative writing)	Can write short descriptive poems using metaphors and similes related to personal identity	Algebraic expressions	6.EE.2a (Write expressions with variables), 6.EE.2c (Evaluate expressions with given values)	Write and solve expressions using personal examples (Grade 5 Algebra UZ.5.3)	Cultural stories and identity	3-5-ETS1-2 (Generate and compare multiple possible solutions to a problem)	Can create cultural expressions using storytelling and explain their significance to identity
2B		Vocabulary: poems, metaphor, simile, culture; Grammar: descriptive phrases, past tense	Figurative language and poetry	L.5.5a (Interpret similes and metaphors), RL.5.2 (Determine theme and summarize text)	Can interpret figurative language in poetry and explain connections to cultural identity	Algebraic expressions	6.EE.2a (Write expressions with variables), 6.EE.2c (Evaluate expressions with given values)	Create expressions inspired by cultural elements (Grade 5 Algebra UZ.5.3)	National folklore and identity	3-5-ETS1-2 (Generate and compare multiple possible solutions to a problem)	Can relate cultural stories to personal experiences and values through creative writing

2C Live		Vocabulary: poetic structure, rhythm; Grammar: present and past tenses	Sharing poems, peer feedback	SL.5.1 (Collaborative discussions), L.5.3 (Use knowledge of language in writing and speaking)	Can perform or present a short poem and give feedback using key vocabulary	Poetry math patterns	5.OA.3 (Identify patterns and explain them), 6.EE.1 (Evaluate expressions)	Identify and describe number patterns in poetic formats (UZ.5.3)	Poetic expression of cultural themes	Aligned with communication of ideas through expressive formats	Can express cultural identity through creative formats like poems and visuals
3A	Understanding Diversity	Vocabulary: differences, respect, community; Grammar: present simple, questions	Reading comprehension and discussion	RI.5.2 (Determine main idea and explain how it is supported by key details), SL.5.1 (Collaborative discussions)	Can discuss cultural and personal differences and identify key ideas from a text	Algebraic expressions	6.EE.3 (Apply properties of operations to generate equivalent expressions)	Identify and generate equivalent expressions (Grade 5 Algebra UZ.5.4)	Recognizing and valuing diversity	5-PS1-3 (Make observations and measurements to identify materials—adapted to social materials)	Can recognize contributions of diverse groups in community and culture
3B		Vocabulary: opinions, identity, comparison; Grammar: linking words, opinion phrases	Comparative essay writing	W.5.1 (Write opinion pieces), W.5.4 (Produce clear writing appropriate to task and purpose)	Can write an opinion paragraph comparing two cultural or personal traits	Algebraic expressions	6.EE.5 (Understand solving an equation as a process of reasoning)	Use expressions to solve real-world comparison problems (Grade 5 Algebra UZ.5.4)	Cultural comparisons	Aligned with scientific argumentation: construct explanations and design solutions	Can compare cultural ideas using structured reasoning and written argument

3C Live		Vocabulary: identity, compare, respect; Grammar: comparatives and linking expressions	Group comparison activity, reflections	SL.5.1 (Collaborative discussions), W.5.1 (Opinion writing)	Can compare identity traits across peers and write a reflection	Compare math expressions	6.EE.5 (Reason through equations), 6.EE.9 (Use variables to describe relationships)	Use expressions to compare class characteristics numerically (UZ.5.4)	Group identity mapping	Aligned with interpreting systems and group patterns	Can compare family, cultural, and class identities using visual tools
4A	Literature and Probability	Vocabulary: chance, prediction, events; Grammar: conditionals, future tense	Reading nonfiction texts and interpreting visuals	RI.5.7 (Draw information from visual and multimedia sources), L.5.4 (Determine meanings of words using context clues)	Can interpret visual data in texts and use vocabulary related to probability	Probability	5.MD.2 (Make a line plot to display a data set of measurements), 7.SP.5 (Understand probability of chance events)	Describe likelihood of events and analyze basic data sets (Grade 5 Statistics UZ.5.1)	Understanding probability in real-world contexts	3-5-ETS1-3 (Plan and carry out fair tests in experimental design)	Can use basic data representations to discuss outcomes and fairness
4B		Vocabulary: outcomes, experiment, graph; Grammar: future conditionals, time expressions	Text analysis and vocabulary development	RI.5.4 (Determine meaning of words and phrases in text), L.5.6 (Use academic and domain-specific vocabulary)	Can analyze vocabulary related to chance and use it in predictions and explanations	Probability	7.SP.6 (Approximate probability by collecting data), 7.SP.7a (Develop a probability model)	Estimate and calculate probabilities using class-generated data (Grade 5 Statistics UZ.5.2)	Experimental data and prediction	3-5-ETS1-3 (Plan and carry out fair tests and analyze results)	Can explain outcomes of experiments using appropriate mathematical and descriptive language

4C Live		Vocabulary: chance, prediction, graph; Grammar: conditionals and time connectors	Probability stories and reflection	SL.5.1 (Discussion), RI.5.4 (Determine word meanings in context)	Can discuss and write about chances and outcomes from daily life	Real-time probability activity	7.SP.5–7.SP.7 (Probability models and experiments)	Predict outcomes from group experiments and create data tables (UZ.5.2)	Designing fair experiments	3-5-ETS1-3 (Conduct fair tests)	Can design and describe experiments showing fairness or bias
5A	Research and Presentation Skills	Vocabulary: research, topic, source; Grammar: questions, present simple passive	Note-taking and source citation	W.5.7 (Conduct short research projects), RI.5.9 (Integrate information from multiple texts)	Can collect and organize information from different sources to support a topic	Data analysis	5.MD.2 (Represent and interpret data), 6.SP.4 (Display numerical data in plots)	Gather and display data in charts and graphs (Grade 5 Statistics UZ.5.3)	Research methods and tools	3-5-ETS1-3 (Plan and carry out investigations and analyze data)	Can conduct simple investigations and present findings using visuals and oral explanations
5B		Vocabulary: visual aid, summary, conclusion; Grammar: future tense, sequencing words	Writing reports and presenting	SL.5.4 (Report on a topic or text), W.5.8 (Recall and summarize information from sources)	Can prepare and deliver a short presentation using visuals and clear sequencing	Data analysis	6.SP.5 (Summarize numerical data sets), 6.SP.2 (Understand measures of center and variability)	Interpret and compare sets of data visually and statistically (Grade 5 Statistics UZ.5.4)	Presenting research findings	Aligned with engineering design communication (present solutions and explain reasoning)	Can present research findings clearly using visuals, graphs, and organized explanations
5C Live		Vocabulary: source, topic, organize; Grammar: sequence words and future tense	Mini presentations	SL.5.4 (Present ideas with support), W.5.8 (Recall and organize research)	Can share a short research topic with organized visuals and explanations	Present data	6.SP.5 (Summarize numerical data), 6.SP.4 (Display in visuals)	Use charts to present findings from a class survey or research (UZ.5.4)	Present research on a civic or cultural issue	Aligned to communicate solutions based on data	Can explain findings clearly and relate them to community context

6A	Identity in Media	Vocabulary: media, stereotype, representation; Grammar: present perfect, modals	Media analysis and discussion	RI.5.6 (Analyze multiple accounts of the same event), SL.5.1 (Engage in collaborative discussions)	Can analyze how identity is represented in different media and express opinions clearly	Media statistics	6.SP.1 (Recognize a statistical question), 6.SP.4 (Display data in plots, graphs)	Identify statistical questions and represent data visually (Grade 5 Statistics UZ.5.5)	Representation in society	Aligned to inquiry and analysis of data sources and presentation formats	Can analyze how media influences perceptions of identity and group representation
		Vocabulary: advertisement, bias, audience; Grammar: comparatives, modals of obligation	Critical reading and media production	RI.5.8 (Explain how an author uses reasons and evidence), SL.5.5 (Include multimedia in presentations)	Can evaluate a media message for bias and create a short multimedia presentation	Media statistics	6.SP.3 (Recognize measures of center in a data set), 6.SP.5 (Summarize data sets)	Summarize and interpret sets of media-related data (Grade 5 Statistics UZ.5.6)	Media influence and data interpretation	Aligned with analysis of systems and interpreting patterns in data	Can analyze bias in information sources and represent media influence using visual data
		Vocabulary: influence, image, message; Grammar: modals and present continuous	Media discussion and reflection	SL.5.1 (Discussion), RI.5.6 (Compare points of view)	Can analyze media pieces and share opinions in small groups	Interpreting media statistics	6.SP.5 (Summarize data sets), 6.SP.3 (Measure center and spread)	Interpret charts in media and draw conclusions (UZ.5.6)	Evaluating media influence	Aligned with interpreting information systems and modeling ideas	Can analyze media's role in shaping views and reflect on media's accuracy

7A	Community and Service	Vocabulary: community, volunteer, responsibility; Grammar: imperatives, present continuous	Reading about service projects and reflecting	RI.5.3 (Explain relationships between individuals/events in a text), W.5.2 (Informative writing)	Can read about and describe community service activities using appropriate vocabulary	Planning and budgeting	5.NBT.5 (Fluently multiply multi-digit numbers), 6.RP.3 (Use ratio reasoning to solve real-world problems)	Plan simple service projects using multiplication and ratios (Grade 5 Math UZ.5.1)	Community engagement and civic responsibility	Aligned with planning and problem-solving in real-world contexts (engineering practices)	Can describe responsibilities in the community and suggest ways to help others through projects
		Vocabulary: goal, plan, action; Grammar: sequencing, modals for suggestions	Project planning and reflective writing	W.5.3 (Narrative writing), SL.5.1 (Collaborative discussion)	Can write about a community action plan using organized steps and clear goals	Project cost estimation	5.NBT.7 (Add, subtract, multiply, and divide decimals), 6.RP.3 (Solve real-world ratio problems)	Use decimal operations to plan a simple budget (UZ.5.2)	Civic responsibility and planning	Aligned with design and optimization (engineering practices)	Can identify needs in community and suggest step-by-step solutions
		Vocabulary: leader, helper, task; Grammar: imperatives, present continuous	Sharing service ideas and team planning	SL.5.4 (Present ideas), W.5.7 (Research and respond to a topic)	Can present a service idea clearly and contribute to group planning	Charting and organizing plans	6.SP.5 (Summarize data), 5.NBT.5 (Multi-digit multiplication)	Use visuals (charts, tallies) to plan steps or needs in a project (UZ.5.3)	Team collaboration for service	3-5-ETS1-1 (Define a problem and develop solutions)	Can work in teams to design a service-based solution for their local community
8A	Health and Well-being	Vocabulary: nutrition, fitness, habit; Grammar: modals of advice, frequency adverbs	Informational reading and note-taking	RI.5.3 (Explain relationships between ideas), W.5.2 (Informative writing)	Can read and summarize health information using key vocabulary	Data collection and representation	6.SP.1 (Recognize statistical questions), 5.MD.2 (Display and interpret data)	Gather and chart data about habits or health routines (UZ.5.5)	Human body and health habits	4-LS1-1 (Structures and functions of organisms), 5-PS3-1 (Use of energy in organisms)	Can describe habits that contribute to physical and mental well-being

8B		Vocabulary: energy, sleep, emotion; Grammar: conditionals, comparatives	Writing health plans	W.5.1 (Opinion writing), RI.5.8 (Explain how an author uses evidence)	Can write a personal health plan with reasons and comparisons	Graphing health routines	6.SP.4 (Display data in plots), 5.MD.2 (Interpret data from line plots)	Use graphs to show patterns in daily habits (UZ.5.5)	Habit tracking and analysis	4-LS1-2 (Use models to describe systems in organisms)	Can identify daily routines that support well-being and track changes over time
8C Live		Vocabulary: stress, routine, balance; Grammar: modals, adverbs of frequency	Sharing health plans, goal setting	SL.5.1 (Participate in discussions), W.5.4 (Clear writing for purpose and audience)	Can share and discuss personal goals for health and well-being	Class habit data review	6.SP.5 (Summarize and interpret data), 6.SP.2 (Understanding data distribution)	Summarize class health data and suggest improvements (UZ.5.6)	Community health awareness	5-PS3-1 (Energy and organisms), 4-LS1-1 (Structure and function)	Can reflect on personal and group actions that promote health in the community

Lesson 1: Exploring Our Identity and Personal Characteristics			
Subject	Topics	Standards US	Standards UZ
Social/ Emotional	Identity	CASEL Competency: Self-awareness	Can describe aspects of individual and group identity within family and culture
	Personal characteristics		UZ.LIT.5.3 (Use adjectives to describe personal traits in oral and written form)
Language Arts	Speaking and listening	SL.5.1 (Engage effectively in collaborative discussions)	UZ.LIT.5.9 (Engage in collaborative discussions and express ideas clearly)
Math	Order of operations	5.OA.1 (Use parentheses, brackets, or braces in numerical expressions)	UZ.5.2 (Evaluate and simplify basic algebraic expressions using correct operation order)
	Solving equations	5.OA.2 (Write simple expressions and interpret numerical expressions)	UZ.5.3 (Evaluate and interpret multi-step numerical expressions; write and solve expressions)
Science	Understanding personal identity	3-5-ETS1-1 (Define a simple design problem reflecting a need or a want)	Can describe aspects of individual and group identity within family and culture
Social Sciences	—	—	—
English	identity		
	characteristics,		
	unique,		
	expression,		

Vocabulary	equation,		
	solve,		
	discuss,		
	share		
<u>Script</u>	See detailed host-guided script for 1A, which includes: Interactive whiteboard identity puzzle activity Vocabulary practice with adjectives Discussion of multiple intelligences Reflections on beliefs, values, and experiences Math expressions using character traits Visual puzzle building and cultural connections		
Worksheet	Create a worksheet where students: Select 3–5 character traits from a word bank Match each with a number (based on alphabet position or assigned value) Form math equations using those traits Solve and reflect on how those traits relate to their identity		
Material	Chart paper or whiteboard Student notebooks Worksheet printouts Pencils and markers Vocabulary visuals (English/Russian/Uzbek) Puzzle cutouts or interactive puzzle display		

Lesson 1: Exploring Our Identity and Personal Characteristics			
Subject	Topics	Standards US	Standards UZ
Social/ Emotional	Culture	CASEL: Social Awareness	Can describe aspects of group identity and cultural practices
	Cultural identity		UZ.LIT.5.5 (Discuss and reflect on personal and cultural identity)
Language Arts	Writing - descriptive paragraph	W.5.2 (Write informative/explanatory texts with clear ideas)	UZ.LIT.5.8 (Write descriptive texts using specific vocabulary)
Math	Order of operations	5.OA.1 (Use parentheses, brackets, or braces in numerical expressions)	UZ.5.2 (Evaluate and simplify basic algebraic expressions using correct operation order)
	Solving equations	5.OA.2 (Write simple expressions and interpret numerical expressions)	UZ.5.3 (Evaluate and interpret multi-step numerical expressions; write and solve expressions)
Science	Understanding cultural influence	3-5-ETS1-1 (Design problem reflecting cultural needs)	Can relate cultural practices to individual identity
Social Sciences	Cultural traditions and heritage	D2.H2.3-5 (Compare life across cultures)	UZ.SS.5.2 (Explain cultural customs and celebrations)
English Vocabulary	culture		
	tradition		
	symbol		
	celebration		
	identity		

	represent		
	describe		
	reflect		
<u>Script</u>	Students revisit the concept of identity and deepen their understanding through cultural exploration. The teacher facilitates a collage/drawing activity and a descriptive paragraph, followed by math practice using order of operations.		
Worksheet	A guided worksheet where students: List 3 cultural elements they chose Assign values to each element Write an equation using those values Solve the equation using order of operations Write a paragraph with sentence stems explaining the cultural significance of each element		
Materials	Colored paper Magazines or printed images Scissors and glue Notebooks and pencils Sentence stem templates Math problem cards or slides
